Notice

This is to notify about the page @youth_against_rape from which the Mission - "Youth Against Rape" started.

The referred handles name was previously based on the names of modeling pages, changed multiple times & seeing the good number of follower's base, the Founder Piyush Monga retrieved the page from its owner for creating awareness regarding the mission - "Youth Against Rape".

The page was handed over to us with the owner's own will on 25th May 2019, with 2000 followers, from there on the page is solely run, managed & used by **Piyush Monga** the Founder of the mission, "Youth Against Rape" for awareness purposes. With the vision of #RapeMuktBharat, the mission was introduced to the few followers present then, which led to this huge community.

We kept on notifying about the past-present purpose & use of the page through posts/highlights from time to time to the Instagram Community to avoid misconceptions. And also the further changes will be timely notified through the same.
